

PortsToronto Statement: Release of Gazette Part One related to the introduction of Runway End Safety Areas (RESAs)

Toronto (March 7, 2020) – “Over the last several years PortsToronto has engaged on a preliminary basis with government partners and stakeholders to prepare for the introduction of Runway End Safety Areas (RESAs) at Canadian airports and will assess all options available to effectively implement RESA to ensure compliance with the new enhanced safety regulations as part of our unyielding commitment to safety. PortsToronto will continue to work with our Tripartite Agreement partners including the City of Toronto and commit to transparency regarding the best approach to the new regulation at Billy Bishop Toronto City Airport.”
